OVER THE YEARS

Commentaries based on cataloging over 300 sales and collecting since 1928.

Mary Brooks, the Director of the United States Mint informs us that the number of people viewing the CLIFFORD-KAGIN COLLECTION of PIONEER & TERRITORIAL GOLD on display at the SAN FRANCISCO MINT now exceeds 500 per day and is increasing. We are in the process of acquiring additional material, as well as improving the quality of the few coins which might possibly be improved (we did acquire one at the A.N.A. Convention).

December 9th marks the One Hundreth Anniversary of the San Francisco Mint. We have been invited to participate in the ceremony being planned then. Commentaries regarding the occasion will appear in our next catalog.

In the commentaries to our last auction (Nov. 1) we made mention of the Stella bringing \$14,500.00 at our Nov. 1973 sale a year ago and that the one at A.N.A. was \$24,000.00. Since then, one brought \$32,000.00 at Superior's Oct. sale. It will be interesting to see what the one in this sale now brings.

The Panama Pacific Gold Set in plastic in our November sale fetched \$31,000.00. The one in this sale IN ORIGINAL PLUSH BOX should certainly bring more. How much it will bring depends on several factors prevailing at the time of the sale. That is what makes the "game" so fascinating.

The outstanding 1797 HALF DOLLAR and PROOF 1829 \$2½ GOLD should certainly attract some spirited bidding. In fact, there are so many outstanding coins that even a brief resume would take too much space. We invite your careful perusal of the entire contents as some coins may not again be offered for years in this quality.

HALF CENTS TYPE SET

48. 1794 Cohen 9 (G-1) variety, borderline Very Fine with right reverse edge beginning to crumble as described in "*American Half Cents*" by Roger Cohen. Catalogs low V.F. at only 335.00.

49. 1800 DRAPED BUST, SINGLE LEAF TOP, Uncirculated brown with faint hint of red, CHOICE! In strong demand thus. Now worth over 1,000.00.
50. 1804 CHANGED REVERSE (Double Leaf at right) Plain 4, Stemless variety, Uncirculated brown, CHOICE! Have seen similar at around 500.00.

51. 1809 Cohen 3 (G-4) CLASSIC HEAD, Glittering chocolate Uncirculated with hint of red in left stars and LIBERTY, SHARP STRUCK GEM! A remarkable specimen now worth 750.00.
52. 1828 13 Stars, Uncirculated brown with traces of red, SHARP STRUCK GEM! We note similar at 500.00.
53. 1828 12 Stars, about Uncirculated. Only year "type." Cat. Unc. \$275; worth half.

54. 1835 REDESIGNED TYPE (1831-36) BRILLIANT RED UNCIRCULATED SHARP STRUCK GEM! Similar one last August was \$750; present value?

55. 1837 Token, virtually Uncirculated, barest friction, tiny edge nick. 150.00
56. 1855 BRAIDED HAIR, Uncirculated Red & Iridescent SHARP STRUCK GEM! 500.00

1793 CHOICE LARGE CENTS

57. 1793 S-6, WREATH, Vine & Bars edge, famous "Sprung Die" variety, Extremely Fine & Sharp obverse with reverse being Very Close to Uncirculated having only slight friction. Valued by Sheldon at a basal \$7.50 value compared to 1793 Chain (S-3) at a basal \$7. Using Sheldon's formula, we arrive at a value of over 6,000.00.

58. 1793 S-14, LIBERTY CAP FROM AUGUST 1964 A.N.A. SALE (LOT 42) DESCRIBED:

"1793 LIBERTY CAP S 14. THE BISECTING DIE-CRACK VARIETY. SHELDON STATES THE MILLER-HINES EXAMPLE, WHICH IS THE 2ND FINEST KNOWN IS 25. WE NOW SAY THAT THIS ONE HEREIN LISTED IS FINER THAN THE MILLER-HINES SPECIMEN AND IS AT LEAST 30, WITH THE REVERSE STILL A SHARPER 35. WITH THIS NOW BEING THE 2ND FINEST KNOWN, WE THINK THAT WE HAVE A RIGHT TO EVALUATE THIS ONE AT WHAT MAY SEEM A HIGH ESTIMATE OF \$4,200.00, BUT POSSIBLY AFTER THE BIDDING CLOSES, THIS ESTIMATE MAY BE TOO CONSERVATIVE."

IT DID BRING THE \$4,200.00. NOW 10½ YEARS LATER IN 1975, THIS RARITY SHOULD SURELY BRING OVER 10,000.00.

59. 1794 S-24 "Apple Cheek" variety from August 1964 A.N.A. Sale (lot 43) described: "1794 S 24. Sometimes affectionately called the apple-cheek variety, and as it is, the cheeks are abnormally high and rounded. From the Ex-Dr. French and T. James Clarke Collection. Exceptionally sharp. Glossy medium olive toned. Sheldon states the die nearly always seen delicately roughed or a rusted die, as this is. Owner states this probably the **sharpest known**. For this GEM, we believe it may exceed \$1,200.00." It brought \$1,250.00.

Now, 10½ years later in 1975, this remarkable specimen is in strong demand for "type." Based on what lesser specimens bring, we feel it will exceed 5,000.00.

60. 1795 S-75, LETTERED EDGE, Borderline Uncirculated rather than the "UNCIRCULATED" for which acquired. Uncirculated appearing with lovely glossy brown surface, but close inspection reveals just the barest rubbing. Many times rarer than plain edge (thin planchet) 1795 type. Easily worth over \$2,500; perhaps closer to 3,000.00.

61. 1795 S-78, PLAIN EDGE, "One Cent" centered, acquired early 1974 as "UNCIRCULATED MINT STATE 70." It is indeed the **SHARPEST STRUCK 1795 WE HAVE SEEN IN OVER 40 YEARS AS PROFESSIONAL NUMISMATISTS!** Every Hair Line is Sharp! It is a lovely warm "autumn leaves" color with the Red intermingling particularly strong on the reverse. A "Dream Coin" with \$5,000.00 on it. The continuing demand for "Exceptional Coins At Exceptional Prices" leads us to believe this "ultimate coin" will now bring closer to 7,500.00.

1797 DRAPED BUST, PROOFLIKE GEM

62. 1797 S-135 with notation:

“UNCIRCULATED, PROOFLIKE SURFACE, ATTRACTIVE LIGHT BROWN COLOR, SLIGHT TRACES OF RED, SHARP DEEP MILLING AROUND BOTH SIDES AND PERFECTLY CENTERED. Rare Variety (Rarity 4). The famous “Clapp Specimen.”

Also ex T. James Clarke collection. The \$5,000.00 on it now seems conservative in this rapidly rising market for “Exceptional Pedigreed Specimens.” Surely it should now exceed 7,500.00.

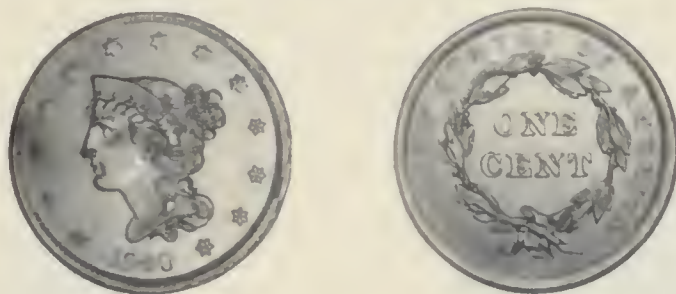

63. 1802 S-231, STEMLESS Wreath, Uncirculated appearing with lovely glossy chocolate color but close inspection reveals the faintest rubbing. Characterist arc die-break on obverse. Surely this “**CONDITION-CENSUS**” specimen now worth over 2,500.00.

1810 “**CONDITION-CENSUS**” CLASSIC HEAD CENT

64. 1810 S-283, **UNCIRCULATED** with lovely Blended Iridescent Red-Bluish-Green color. If not actually “**SECOND FINEST KNOWN**” (Sheldon lists “**Condition-Census**” as 65-60-55-55-55-50) as claimed, then it must equal it. **EXCESSIVELY RARE SO CHOICE!** The catalog states “1808-1814, This group does not compare in sharpness and quality to those struck before (1793-1807), nor to those struck after (1816 on). The copper used was “softer”, having less alloy. This impaired the wearing quality of the series. For this reason collectors find greater difficulty in obtaining those dates in choice condition.” The \$5,000.00 on it does not adequately reflect the strong present demand for **top-grade specimens** of this type. Probably now worth over 7,500.00.

65. 1816 CORONET TYPE, MINT RED UNCIRCULATED shading to light tan, SHARP STRUCK & WELL CENTERED, variety with only three stars before face not completely full, all hair strands SHARP except at the very beginning directly above the eye (and this much sharper than usually seen for the variety). Have seen less desirable at \$750; this choice one now worth?
66. 1836 N-5, NEW TYPE, Uncirculated glossy reddish brown, CHOICE. At least the equal, if not actually superior to "commoner" varieties seen at \$500 to 600.00.
67. 1839 "BOOBY HEAD," variant of N-13 variety, Uncirculated lustrous brown. *Popular.* "Common" variety trends \$400; surely this rare variety worth over 750.00.

68. 1840 "TIPPED BUST" by Gobrecht, N-8 variety, UNCIRCULATED SHARP STRUCK GEM with lovely blended Red Bluish Brown color, smooth PROOFLIKE surface. A "dream coin" which could now bring close to 1,000.00.
69. 1845 N-2, NEW TYPE WITH LARGE CENTERED BUST, Uncirculated smooth surface, glossy brown SHARP STRUCK, WELL CENTERED GEM! Surely now worth over 500.00.

1844 GLITTERING RED PROOF

70. Lot 1079 of our September, 1972 sale described:

"LAST TYPE with Bust Centered Over Date & Large Letters used late in 1843 to 1857. GLITTERING RED PROOF BOTH SIDES, CAMEO-SHARP STRIKE WITH WIDE RAISED EDGE BOTH SIDES, in old-time box with gold-stamped border described "Not in N" (Newcomb). It cost \$4,600.00.

Now 2½ years later, in this market of "Exceptional Prices For Exceptional Coins" we believe it will bring closer to 10,000.00.

FLYING EAGLE CENTS

71. 1856 GLITTERING GOLDEN WIRE EDGE PROOF, close examination reveals short faint line in field resembling die break. Acquired some years ago at \$3,000.00. Dealers now offering to pay (10/4/74 Coin Dealer Newsletter) \$2,750 but none being offered on teletype. Surely this popular rarity in this rising market should bring more than its several-year-old cost of 3,000.00.

72. 1856 Lot 38 of New Netherlands December 1963 sale described:

RAREST OF ALL REGULAR ISSUE 1856 FLYING EAGLE CENTS. **1856 Bold DOUBLED DIE.** Brilliant, lightly toned UNCIRCULATED. A "GEM" first-strike, fully lustrous with lovely semi-reflective surfaces. Flatly struck up on eagle's head and tail as on the **ONLY TWO OTHER EXAMPLES KNOWN TO US** from these dies. The obverse die shifted slightly between two successive blows in the hubbing process, as in the case of the famous 1955 doubled die cent. As a non-proof, guaranteed to be one of the approximately 612 originals and WORTH FAR IN EXCESS OF THE USUAL OFFERINGS.

This reappeared in a 1971 sale at \$3,500; present value in this much stronger market?

SMALL CENTS TYPE SET

73. 1857 Eagle, Uncirculated glittering golden bluish SHARP STRUCK WIRE EDGE GEM! 750.00

95. 1839 NO DRAPERY, varicty with 9 Over 8 or Recut 9, Uncirculated golden, SHARP STRUCK WITH WIRE EDGE! Acquired over 1½ years ago at \$495; surely this popular "type" now worth over 600.00.

1796 PROOFLIKE QUARTER

118. Lot 1136 of our November 1973 sale described:

“1796 PROOFLIKE, SHARPLY STRUCK WITH ALL STARS COMPLETELY FULL, COMPLETE & SHARP EDGE SERRATIONS BOTH SIDES! Glittering bluish golden, **EXCESSIVELY RARE VARIETY** WITH EAGLE’S HEAD STRUCK UP! Close examination with glass reveals faint “mint equalization marks” across center of reverse. **SUPERIOR IN STRIKE TO THE TERREL COIN** (which had flat eagle’s head and breast feathers) in American Auction Assn. sale May 18, 1973 which brought \$17,000.00.”

We believe this **remarkable specimen** will now (well over 1½ years since the Terrel sale) bring at least 25,000.00.

119. 1806 GLITTERING BLUISH UNCIRCULATED, some weakness in striking of center curl and stars but **FAR SHARPER STRIKE THAN GENERALLY SEEN!** Reverse **REMARKABLE SHARP STRIKE** with Full Eagle’s Head and Full Motto. Those who have searched years for a *sharply struck specimen* will realize its rarity. The last comparable specimen we saw was \$10,000.00; this now worth?

- 121. 1831 **REDUCED SIZE, NO MOTTO**, small letters (struck only in early 1831), Uncirculated appearing but close examination reveals just the faintest rub, lovely bluish golden patina.
- 122. 1838 **LIBERTY SEATED, NO DRAPERY**, about Uncirculated, fairly sharp, attractive patina. Trends Unc. \$1,050; this worth at least 350.00.
- 123. 1853 **ARROWS & RAYS**, about Uncirculated ("cleaned" to resemble unc.). Catalogs unc. \$800; this worth closer to half.
- 124. 1854 **ARROWS** only, about Uncirculated, fairly sharp. Trends unc. \$550; this worth 250.00.

1797 "FINEST KNOWN" HALF DOLLAR

134. Lot 78 of our September, 1972 Sale described:

“1797 VARIETY OVERTON 101a, GLITTERING BLuish PROOF-LIKE! A FANTASTIC SPECIMEN, SHARPLY STRUCK WITH DEEP SHARP EDGE DENTICLES BOTH SIDES! LEFT STARS 95% FULL! TOP RIGHT 4 STARS 50% FULL & LAST 3 STARS 80% FULL! PROOF LIKE BUT WHEN HELD AT A CERTAIN ANGLE AND CLOSELY INSPECTED, THE FEW FAINT “MINT EQUALIZATION LINES” APPLIED AT THE MINT DURING ITS MANUFACTURE (TO BRING PLANCHET DOWN TO PROPER WEIGHT) ARE EVIDENT – EVIDENCE THAT THIS REMARKABLE SPECIMEN HAS NOT BEEN TAMPERED WITH (AS HAVE MOST WE HAVE SEEN IN RECENT YEARS). INTERESTING DIE BREAK THRU SECOND STAR. DIE BREAK BETWEEN D & S AND ACROSS EAGLE’S LEFT WING (“HALLMARK” OF THIS VARIETY). WE DO NOT RECALL EVER SEEING A CHOICER SPECIMEN IN ALL OUR 39 YEARS AS PROFESSIONAL NUMISMATISTS!”

By Far, THE RAREST SILVER TYPE and the MOST DIFFICULT TYPE TO OBTAIN IN TOP CONDITION. With lesser rarities now being in the \$50,000.00 class, it would not surprise us to see this “Dream Coin” exceed \$75,000.00; perhaps reaching closer to 100,000.00.

1795 UNCIRCULATED HALF DOLLAR

135. 1795 FLOWING HAIR, variety O-109 (called RARITY 6 [only 13 to 30 known in all] by Overton). Lot 72 of our September, 1972 Sale described:

UNCIRCULATED, SHARP STRUCK WITH EDGE SEGMENTS BOTH SIDES DEEP AND SHARP! A choice evenly struck specimen with stars better struck than on over 95% of all 1795's we have seen of all varieties during our 39 years as professional numismatists! **Lovely bluish PROOFLIKE surface.** Close examination with a glass reveals faint signs of friction; what was generally referred to as "Cabinet Friction" (caused by slight movement when the drawer on which the coin reposed was pulled-out of the old-time coin cabinet a bit too fast). The specimen pictured in Overton is presumably "Condition Census" and appears to be in only very good - - - not unusual for a Rarity 6. Since Overton's coin was presumably "Condition Census," then this must be a candidate for "FINEST KNOWN."

This *remarkable specimen* brought \$5,100.00 then, over two years ago; surely it should now exceed 10,000.00.

1807 BUST RIGHT, 1807 BUST LEFT HALF DOLLARS

136. 1807 BUST RIGHT, O-105 variety, very close to Uncirculated with only slight friction on high points, attractive light golden patina. Unc. bring around \$2,500.00; this worth about 1,000.00.

137. 1807 BUST LEFT, O-112, 50 OVER 20C variety, Uncirculated with lovely patina, points of stars full. Rare thus. Note one at 1,500.00.

138. 1825 REMODELED BUST, variety O-102 (bottom of T in STATES light struck & opposite spot on obverse - point of bust) Brilliant Uncirculated GEM! "MINT STATE 70"! 1,000.00

1836-39 CAPPED BUST REEDED EDGE HALF DOLLARS

139. 1836 "50 CENTS", about Uncirculated with lustrous bluish golden patina, pinpoint edge nick. **ONLY 1200 STRUCK!** Trends unc. \$2,000; this worth about 1,250.00.

149. 1895 BARBER, BRILLIANT two-tone CAMEO-SHARP WIRE EDGE GEM! 750.00

150. 1917 LIBERTY WALKING, Brilliant Uncirculated, SHARP STRUCK GEM! 100.00

EARLY SILVER DOLLARS – TYPE SET

151. 1795 TYPE 1794 WITH FLOWING HAIR, bust small as in 1794, three leaves beneath each wing, uneven wear resulting in the center being a Strong Very Fine and the outer portions (leaves, legend, etc.) actually being Extremely Fine. An attractive coin with lovely patina. The strong demand as a “one year type” (the 1794 is rather rare) struck early in 1795 (the type was changed in the latter part of the same year) should send it over 2,000.00.

152. 1796 DRAPED BUST, SMALL EAGLE, variety with small date and small letters, fairly close to "Uncirculated" with only nominal friction on high points, considerable "mint luster" still adhering. *Much rarer than the other two major varieties.* This variety is "Excessively Rare" in strictly uncirculated. In fact, this choice specimen is close to "Condition-Census"! Probably a \$4,000 to \$5,000.00 coin today.

153. 1799 OVER 98, HERALDIC EAGLE REVERSE, rare "15 Stars" Reverse (engraver had 2 extra stars; he corrected the error by enlarging the first & last clouds to cover the 2 stars so that only the points "peep out" beneath the clouds), **Extremely Fine with traces of luster.** Characteristic striking from slightly bulged dies resulting in eagle's wings not being quite as sharp as the balance of the coin. Comparable specimens of the "common" varieties now bring around \$1,000; **this much rarer one worth closer to 1,500.00.**

154. 1860 LIBERTY SEATED, No Motto, **BRILLIANT PROOFLIKE** (slightly golden) Uncirculated, **CHOICE!** A lovely specimen *far rarer* than the proof in this remarkable condition. A proof now wholesale's (CDN Newsletter) at \$1,100 (when available), therefore this unusual specimen should surely be worth closer to 2,000.00.

SILVER DOLLARS CONTINUED

155. 1871 "In God We Trust" added, Extremely Fine. Trends 105.00.

166. 1864 BRONZE (no "L") GLITTERING RED & BROWN WIRE EDGE PROOF! **ONLY 150 STRUCK!** "TYPE" struck only short time during year. The catalog value of \$775 does not adequately reflect its true rarity and strong demand; should be closer to 1,500.00.

Envelope has "\$10,000-, 4/74." The \$10,000.00 price no longer appears as incredible as it must have early last year. The many incredible prices for coins sold in 1974 makes this figure now appear to be even a bit conservative. In fact, if this remarkable specimen were in our stock, we believe we would not have any difficulty placing it in a top collection of the most fastidious collector at 15,000.00.

"NON-COLLECTIBLE" LARGE CENTS

SEMI-UNIQUE 1793 NC-1 CHAIN CENT

475. 1793 NC-1, so attributed by ANS and Dr. William H. Sheldon. It fits the description in the Chapman 1906 sale. Ex Pascal & Loring. Condition is "Basal State" (bust, LIBE & "1" legible on obverse, chain legible on reverse). Penny Whimsy lists the one in ANS and this as the only known specimens! Easily worth well into the mid-four figures.

UNIQUE 1794 NC-9 LARGE CENT

476. 1794 NC-9, ex Furjanic (who discovered it 1/2/74 at the Miami convention) & Loring. Bust and LIBERTY fairly strong (Very Good) with date legible although weak due to the pitted surface, strong rim; rev. basically Very Good with pitting at top edge, prominent bisecting reverse die break. Surely a **UNIQUE** cent such as this now worth into five figures.

SEMI-UNIQUE 1795 NC-1 JEFFERSON HEAD CENT

477. 1795 NC-1, LETTERED EDGE JEFFERSON HEAD. Ex Thurlow (1967), Naftzger, Loring. Listed in Penny Whimsy as "**UNIQUE**"; this specimen was since discovered. LIBERTY Very Good and Sharp, bust and date close to Good; only ED legible on reverse. Easily worth well into the mid-four figures.

1796 NC-4 LARGE CENT

478. 1796 NC-4, Fair to Good obverse being fairly sharp but the pitting and horizontal lines on neck detract; rev. close to Fine in sharpness with eroded surface and pitmark. "Now a collectible variety, R-7, with seven accounted for, six of them in collectors' hands. The 10 coin, however, is **ANS**" - Sheldon in Penny Whimsey. Still a substantial four-figures coin.

479. 1799 OVER 98 NC-1, Ex L. Nielsen & Robinson Brown. Date fairly sharp with 9 OVER 8 being **BOLD & COMPLETE!** LIBERTY legible except for tops of letters, bust close to Good, three shallow indentations on obverse. Some light bruises around edge. Reverse Good to Very Good (uneven wear), most of surface quite sharp except for substantial wear at right outer edge. **ONLY 3 KNOWN!** Easily worth well into the mid-four figures.

1793 LETTERED EDGE CENT

480. 1793 Wreath, LETTERED EDGE, Single Leaves on edge, Fine to Very Fine. Obverse a sharp Fine bordering on Very Fine; reverse Very Fine with three tiny pitmarks. Popular for type. Catalogs Fine \$825 & V.F. \$1,450; this worth?

CHOICE 1793 LIBERTY CAP CENT

481. 1793 S-13, Very Fine & Sharp, obverse with slight planchet striations as struck; Extremely Fine reverse with thin planchet striation across planchet. The \$3,495 marked on envelope now seems quite reasonable as the catalog lists it in only V.F. at \$2,750; present value?

RARE 1794 LARGE CENT VARIETIES

482. 1794 S-42, Very Fine, fairly sharp but scratch above head and tiny edge nick. Listed as **RARITY 5** with a basal value four times that for common 1794's.
483. 1794 S-50, About Fine with rough surface, thin scratch across reverse. **HIGH RARITY 5.** Basal value five times that for common 1794's.

484. 1794 S-52, Very Good & Sharp ("10") with nick on forehead. Listed as RARITY 7 but a few more have turned-up now making it Rarity 6. Well worth into four-figures.

RARE 1796 LARGE CENT VARIETIES

485. 1796 S-85, Liberty Cap, Very Good & Sharp ("10") granulated surface. RARITY 5 (formerly R-6). With two Fine specimens in Condition-Census, this is quite desirable. We note \$200 on envelope; present value?
486. 1796 S-86, Fine, granulated surface. RARITY 5 (formerly R-6). Possibly the "15" coin in "CONDITION-CENSUS." Envelope has \$275; present value?

487. 1796 S-88, Very Fine & Sharp. EXTREMELY RARE SO CHOICE! We note "CONDITION-CENSUS" is (35-30-30-25-20-20). We note \$1,500.00 on envelope; present value?

1798-1854 RARE & CHOICE CENTS

488. 1798 S-162, Very Fine & Sharp ("30") with attractive steel-blue color. RARITY 5. "CONDITION-CENSUS" is (65-60-40-25-20-15). Basal value four times that for common varieties. Envelope marked \$275; present value?

489. 1800 S-202, Heavy break behind curls variety (bulged reverse die opposite), lustrous steel-blue specimen with only slight friction, ex. Naftzger. "CONDITION-CENSUS" is (65-50-45-35-30-25). Easily worth into four-figures.

490. 1802 S-228, Fraction 1/1000, only slight wear but has been cleaned to golden and red color, faint scratch in field. Envelope has \$995 (as unc?).

491. 1810 S-282, Borderline Uncirculated with just the faintest trace of friction, attractive smooth planchet with brown color, just the slightest shortness of planchet at bottom. A desirable classic-head specimen. The \$1,150 on envelope is certainly "in line" with the present market.

492. 1854 Blazing Red Uncirculated GEM!

EARLY AMERICAN COINS

SOMMER ISLANDS (1616) SHILLING

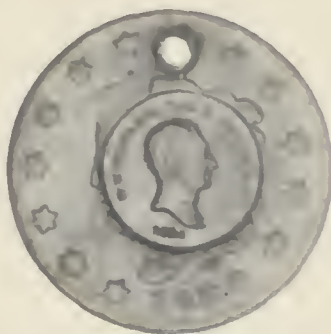

493. SHILLING acquired as "About Good." The obverse is basically closer to Very Good (reasonably comparable to the one pictured in the Guidebook) except the surface is pitted (as usual for this brass composition piece); the reverse is also reasonably comparable to that pictured in Guidebook, except for the pitting. **FAR SUPERIOR TO MOST OF THE FEW IN EXISTENCE!** Prices for those appearing the past two years leads us to expect bidding into the strong mid-four figures.

1652 PINETREE SHILLING UNCIRCULATED

494. 1652 NEW ENGLAND Pinetree Shilling, Large Planchet, Noe 2 variety, Well-Centered and Sharply Struck with only the single planchet break at edge (a frequent occurrence among coins struck without a collar to contain the spreading of the planchet during the striking). The original envelope has "Original Unc., very sharply struck, one pre-striking planchet edge-clip which is very common to this type. A fantastic piece of Massachusetts silver. Many times rarer than the Continental dollar in this grade." We might add that a glass reveals faint "cabinet friction." A lovely and desirable specimen which (judging from what comparable specimens have brought) should realize a few thousands.

WASHINGTON/LAFAYETTE 1824 COMMEMORATIVE CENT

495. "GENERAL LAFAYETTE 1824" around bust of Lafayette counterstamped on obverse 1820 cent; "GEORGE WASHINGTON" around bust counterstamped on reverse, Very Fine, holed for suspension. Struck to commemorate Lafayette's visit to U.S. in 1824. Popular. Note similar (also holed) during past two years at prices around four-figures.

1884-CC PROOF SILVER DOLLAR (AUTHENTICATED)

617. 1884-CC BRILLIANT GOLDEN WIRE EDGE PROOF! A lovely specimen of this remarkable coin. Mounted in plastic with the following letter of authentication:

"INSTITUTE OF NUMISMATIC AUTHENTICATORS"

Staten Island, New York 10312

To Whom It May Concern:

This certifies that I have examined the accompanying coin and that the following is my conclusions about it.

It has every appearance of being an authentic intentional Brilliant Proof Striking of the 1884 CC silver dollar, from polished dies on a specially polished blank, given at least two blows from the dies. No recorded historical occasion for any such presentation piece is known. Nevertheless, the coin "Carries Its Own Credentials" and stands on its own merits.

Respectfully Submitted

Walter Breen

This coin was advertised on page 123 of the October 16th Coin World at \$37,500.00. It will be interesting to see what it now brings in this sale.

664. 1854-S Brilliant Uncirculated, SHARP STRUCK GEM! Only Type 1 "S" mint dollar. Trends average unc. \$1,000 but we note one described as "gem" at 2,500.00.

665. 1855 TYPE II, Uncirculated with some patina, sharper struck than most with 8 fully visible although not completely struck up at top.

666. 1855 TYPE II, Uncirculated, struck from clashed dies (as evidenced on reverse), faint line in obverse field, close inspection reveals evidence of cleaning, desirable early die impression with 8 visible although weak. Popular.

667. 1855-O TYPE II, virtually Uncirculated, only barest friction on top hair strand, almost full luster, sharper struck than most with 8 fully visible although not completely struck up. Breen in his monograph "Major varieties of U.S. Gold Dollars" states "*Almost always with weak 8.*" Comparable to the one offered nearly a year ago by a leading dealer at \$3,500; surely this popular elusive date now worth over 4,000.00.

668. 1856-S TYPE II, virtually Uncirculated, only barest friction. RARE. Seldom offered so choice. The only "S" mint type II. A.U. ad \$1,350; this superior one worth?

1860-D "CONDITION-CENSUS" \$1

681. 1860-D virtually Uncirculated, barest friction, SHARPLY STRUCK with "U" in UNITED VISIBLE (although faint), most of milling at outer edge sharp and visible (what few specimens we have seen in our forty-odd years as professionals have milling somewhat incomplete). The "6" in date sharper than usually seen. Acquired as "Uncirculated, usual strike." Breen states "U very weak, borders, curls, feathers and parts of wreath likewise weak. EXTREMELY RARE; PROBABLY LESS THAN A DOZEN KNOWN, and Most Of Them Worn. These planchets are usually defective." This planchet is *not defective*. HIGH UP IN "CONDITION-CENSUS"! In this condition, it should surely bring a substantial five-figures.

682. 1860-S Very Fine (evidence of jewelry use). Low coinage.

683. 1861 Brilliant Uncirculated, SHARP STRUCK GEM!

684. 1862 Extremely Fine & Sharp.

692. 1879 Brilliant Prooflike Sharp Struck, Wire Edge GEM! Breen states "Very Rare." A magnificent specimen now approaching 1,000.00.

693. 1880 Brilliant Prooflike Sharp Struck Wire Edge GEM! Close scrutiny reveals a tiny "lint-mark" (caused by minute lint piece adhering to die after cloth wiping) which seems to have occurred on several specimens we have seen. **ONLY 1,636 STRUCK!** We note one some months ago at close to four figures.

694. 1881 Brilliant Prooflike Sharp Struck, Wire Edge GEM! Rather deceptive (acquired as a "Proof"). Breen states "Rare." 850.00

1796 \$2½ GOLD NO STARS

700. 1796 NO STARS, Extremely Fine. The first quarter-eagle struck and a candidate for the "Most Wanted \$2½ Gold." Only 963 struck before the design was altered the same year to include stars on the obverse. Breen in his monograph "Varieties of Quarter Eagles" calls it "High R-6" (about 15 to 18 known). We noted lesser grade specimens the past year in the five-figures range.

1796 \$2½ GOLD WITH STARS

701. 1796 WITH 16 STARS (States) Added To Obverse, 8 stars left & 8 right (this arrangement found on no other quarter-eagle!). About Uncirculated, quite sharp with almost full luster. *An attractive and highly desirable specimen of this rarity.* **ONLY 432 STRUCK!** Breen in his monograph calls it "Borderline R-7" (11 or 12 known). With lesser rarities bringing well into five figures, it is self-evident that this choice specimen is greatly undervalued.

1807 \$2½ GOLD

702. 1807 13 STARS, Very Fine & Sharp (acquired as Extremely Fine) with faint line on obverse. In strong demand for "type." Records well into four-figures.

1808 \$2½ GOLD

703. 1808 CAPPED BUST TO LEFT (only year struck), Very Fine & Sharp (acquired as Extremely Fine). Seldom offered. In strong demand. The A.N.A. August convention had a specimen not quite the equal of this at five figures.

1829 BRILLIANT PROOF \$2½ GOLD

704. **1829 BRILLIANT WIRE EDGE PROOF!** Ex. Harmer Rooke (Taxay, Anton, Breen at the time). First year (by William Kneass) of new modified type with smaller diameter, letters, date and stars. **EXCESSIVELY RARE!** With uncirculated now at over \$10,000.00, it is difficult to “guestimate” what this highly desirable rarity is worth in this era of “Exceptional Prices For Exceptional Coins.” For instance, an uncirculated 1848 “CAL.” over eagle would now also be in the \$10,000 plus class but a “Specimen Strike” was offered on the back page of the September 25th Coin World by a leading California dealer at \$65,000.00. What then is this exceptional 1829 worth in the present market?

1831 \$2½ GOLD

705. **1831 HEAD IN CAP, REDUCED SIZE**, about Uncirculated, quite Sharp with luster. There has been a spectacular rise in value for this type during the past year with quite substantial four-figure prices noted for similar specimens. Ad page 11 of 11/13/74 Coin World for 1833 AU at \$4,500.00. This scarcer date worth?

706. **1834 Brilliant Uncirculated, Sharp Struck with Prooflike surface, Raised Edge both sides**, some porosity of surface around bust and eagle. A lovely specimen. Note an ad for 1836 page 11 of 11/13/74 Coin World for “Choice BU almost a full strike \$2,250.00.” This scarcer date in superior condition worth?

707. 1836 Uncirculated with some patina, WIRE EDGE. Ad 11/13 CW page 11 for "Choice BU almost a full strike \$2,250.00."

708. 1838 about Uncirculated, rather sharp except (as usual) right wing tip not fully struck up, some luster. Trends unc. \$1,100; this worth about 700.00.

709. 1839-D Mint Mark Obverse, virtually Uncirculated, barest friction. RARE. Trends unc. \$1,925 but one at A.N.A. last August was \$2,750.00; this worth?

710. 1839-O Brilliant orange Uncirculated. Note ad page 11 of 11/13/74 CW for "Borderline Unc. \$1,500.00." This superior one surely worth somewhat more.

748. 1909 INDIAN, Brilliant Uncirculated. Trends 155.00.

762. 1868 Prooflike with Wire Edge, but glass reveals faint rub. Scott states "Very Rare unc." There was one about similar at A.N.A. for \$1,975; this now worth?

763. 1889 Uncirculated, Sharp Struck with Prooflike surface, Wire Edge. Trends \$1,875 unc.; this prooflike specimen worth more.

\$4 1879 PROOF STELLA

764. \$4 1879 FLOWING HAIR, BRILLIANT WIRE EDGE PROOF. Called "STELLA" from the large star on reverse. Quite popular. The last record was the Superior Stamp & Coin Co. sale in October where one realized \$32,000.00. It will be interesting to see what this specimen now brings.

\$5 1795 SMALL EAGLE, UNCIRCULATED

765. 1795 SMALL EAGLE, Brilliant Uncirculated with Wire Edge Both Sides, a desirable specimen even though the eagle's breast feathers are not complete. Comparable to specimens we have seen well into the five figures.

766. 1795 SMALL EAGLE duplicate in Extremely Fine. Popular "type." Note similar specimens in past year at substantial four-figure prices with those in recent months approaching closer to five-figures.

\$5 CAPPED BUST RIGHT, HERALDIC EAGLE

767. 1802/1 STARS 8X5, about Uncirculated (cleaned) with nominal friction, free from the abrasions which seem to accompany so many of these large, soft pieces. Note "Choice AU" page 11 of 11/13/74 Coin World at \$2,250.00. This worth?
768. 1803/2 Extremely Fine, some "mint equalization marks" done at mint to bring planchet down to proper weight (rather than melting and restriking them).

769. 1803/2 about Uncirculated, quite sharp, some faint "mint equalization marks."
770. 1806 Round Top 6, STARS CHANGED TO 7X6, Extremely Fine with most of coin closer to about Uncirculated but some left stars and corresponding small portion of reverse weak.

771. 1806 Round Top 6, virtually Uncirculated, only barest friction on obverse. Free from any adjustment marks which seem to accompany so many of these early coins. Note an ad page 11 of 11/13/74 Coin World for "Choice BU, a few light reverse adjustment marks but otherwise a gem. \$4,500.00." This coin worth?

\$5 DRAPED CAPPED BUST LEFT

772. 1807 virtually Uncirculated, practically no wear but has been cleaned to make it appear as "Brilliant Unc." Note 11/13/74 Cw ad does not have this desirable (and rarer) "first year of type" but does have the "commonest" date of this type (1810) in "AU" at \$1,650: surely this choice specimen worth somewhat more.
773. 1808 Extremely Fine, an attractive specimen without the usual abrasions which seem to plague so many of these large coins.

\$5 1818 CAPPED BUST TO LEFT

774. 1818 about Uncirculated with luster, only slight friction but has tiny abrasion on cheek. Elusive type now bringing a substantial four-figures.

\$5 CLASSIC HEAD TYPE GOLD

775. 1834 Plain 4, BRILLIANT PROOF SURFACE OBVERSE & REVERSE, SHARP STRUCK WITH RAISED EDGE BOTH SIDES! A lovely specimen with only a minute edge nick that might possibly detract from its shimmering beauty. Acquired as a "PROOF" but since it doesn't have all the attributes generally associated with full proofs, we prefer to call it a "SPECIMEN STRIKE." In this era of "Exceptional Prices For Exceptional Coins" it is difficult to predict what such an exceptional specimen might bring; perhaps between mid four figures to near five figures.

776. 1836 about Uncirculated, fairly sharp. The "AU" 1835 in 11/13/74 Cw ad (no 1836) was \$750: this worth?

\$5 GOLD 1878-CC ABOUT UNCIRCULATED

780. 1878-CC about Uncirculated with some luster. Scott states "*Unknown in unc., excessively rare in E.F.*" Undoubtedly "HIGH UP IN CONDITION-CENSUS"! Surely this rarity worth quite a substantial four-figures. Missing in many of the leading collections.

\$5 1909-O BRILLIANT UNCIRCULATED GEM

802. 1909-O Sharp Struck "O", Brilliant Uncirculated GEM! In this condition, Far Rarer Than 1929! The gem in our July sale realized \$4,750; the advance in values for "gem" specimens since then leads us to believe this will now fetch somewhat more.

\$10 1795 15 STARS, SMALL EAGLE, CHOICE

803. Lot 1521 of our July sale described:

"Appears to be UNCIRCULATED but close inspection with a glass reveals faint rubbing in the right obverse field and a pinpoint nick below the eagle on the reverse. A lovely specimen of this popular "First Year Of Type."

It realized \$8,200.00. In August, at the A.N.A. Convention we noted specimens in comparable condition (some not the equal of this) at prices well into five figures. Present value?

804. 1795 Extremely Fine, quite Sharp with some luster. Comparable specimens were at the A.N.A. in August at prices in the neighborhood of five figures.

\$10 1796 16 STARS, SMALL EAGLE

805. 1796 STARS INCREASED TO 16 (Tennessee became a state) Extremely Fine but has a scratch on obverse. Scarcer than 1795. A substantial four figure coin.

\$10 1797 LARGE EAGLE UNCIRCULATED

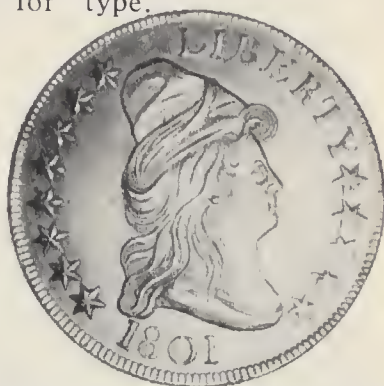

806. 1797 10X6 SMALL STARS, LARGE HERALDIC EAGLE, Glittering orange Uncirculated, Sharp Struck with deep edge denticles on reverse, Prooflike reverse; close inspection reveals faint rub on center hair strand (old-time "cabinet friction"). Worthy of a high mid-four figures bid, possibly closer to five figures.

\$10 1799 CHOICE

807. 1799 13 STARS, BRILLIANT PROOFLIKE, SHARP STRUCK WITH WIRE EDGE!
Only the faint lines in obverse field restrains our use of superlatives such as "GEM". In this market of "Exceptional Prices For Exceptional Coins", we believe this Exceptional Specimen will bring in the neighborhood of five figures.

808. 1800 Fine & Sharp with reverse approaching Very Fine (envelope marked VF). Many times scarcer than 1799, 1801, 1803. Well worth a strong four-figures bid.
809. 1801 Envelope has XF but there is a nick at the chin and a tiny nick on reverse edge. Popular for "type."

810. 1801 Brilliant Uncirculated, left stars sharp but right stars not fully struck up, faint rub on collar (old-time "cabinet friction"). Prices in 1974 seem to be in the strong mid-four-figures.

811. 1803 Borderline Uncirculated rather than the BU marked, nice sharp strike with practically full luster. A strong four-figures coin.

\$10 1853 OVER 2, EXTREMELY RARE

812. 1853 OVER 2 (evidence of underlying 2 in bottom of 3), Extremely Fine & Sharp (envelope has "AU Choice"). Breen in his "United States Eagles" monograph states "ONLY TWO SPECIMENS KNOWN." This is an additional specimen. One of the two known mentioned by Breen was in our July sale ("virtually uncirculated, barest friction") where it brought \$11,000.00. It will be interesting to see what this specimen now fetches.
813. 1854-S about Uncirculated with traces of luster. FIRST YEAR SAN FRANCISCO MINT. Popular. Scott states "Very rare in unc." The last comparable condition specimen was valued \$750; present value?

\$10 1855 NO MOTTO "MINT STATE 70" GEM

814. 1855 BRILLIANT UNCIRCULATED, SHARP STRUCK GEM! PRISTINE! WE DO NOT SEE HOW A CHOICER SPECIMEN COULD EXIST! Surely this candidate for "FINEST KNOWN" should bring several thousand dollars.

815. 1882 GLITTERING PROOFLIKE OBVERSE & REVERSE, SHARP STRUCK WITH WIRE EDGE! A glass reveals faint contact marks in field. So deceptive that it was acquired as a "PROOF" at \$1,500.00. A choice proof would probably bring around \$5,000; this specimen in its own right, properly described should now exceed 1,000.00.

\$10 1885 GEM RPOOF

816. 1885 BRILLIANT WIRE EDGE GEM PROOF! A lovely specimen. ONLY 65 STRUCK! Less rare dates bring strong mid-four figures; it will be interesting to see what this rare date fetches.

817. 1892-O Brilliant Uncirculated CHOICE! Far superior to most seen. Less choice specimens have been noted at around \$500.00; this choice one worth?

818. 1902-S Brilliant Uncirculated, Sharp Struck with only a few of the bag-marks which plague these large coins.

\$10 1905 BRILLIANT PROOF

819. 1905 BRILLIANT WIRE EDGE PROOF. A choice and lovely specimen superior to most seen. **ONLY 86 STRUCK.** Note higher issue specimens the past year at upwards of \$3,500; it will be interesting to see what this scarcer specimen now brings.

\$10 INDIAN HEAD TYPE

820. 1907 No Motto, PERIODS Before & After *E* PLURIBUS * UNUM, WIRE EDGE, Brilliant Uncirculated, Choice. Satin-like surface and Sharp Strike resembling that in proofs. **ONLY 500 STRUCK.** Catalogs \$6,500.00 but have noted specimens priced closer to five figures.

821. 1907 No Motto, Brilliant Uncirculated. Ad page 11 of 11/13/74 Coin World 595.00.

824. 1851-O TWENTY D., about Uncirculated with some luster. Popular. Trends E.F. \$1,000 and Unc. \$2,000.00; this worth?

825. 1852 TWENTY D., Brilliant Uncirculated GEM! Note BU Choice at \$2,500; surely this gem worth somewhat more.

826. 1855-S Uncirculated SHARP STRUCK, fewer than usual bag-marks. Note BU Choice at \$1,500.00; this worth?

in any condition but possibly UNIQUE THUS."**

It fetched \$4,100.00 with the successful bidder willing to go to \$4,600; the sharp rise in double eagle values since then leads us to believe this incredible specimen will fetch somewhat more.

We did not see either of the above specimens, therefore do not know how they compared to this one.

\$10 1795 EXCESSIVELY RARE 9 LEAVES — FINEST KNOWN

925. 1795 Mounted in plastic lettered:

"UNITED STATES 1795 EAGLE, FINEST KNOWN. EXCESSIVELY RARE VARIETY WITH NINE LEAVES ON BRANCH. ONLY TWO OTHERS KNOWN. BREEN 4-C, ADAM 5, NEWCOMER 439. RARITY 8."

This is evidently the one described in Breen's monograph "United States Eagles" as "Cicero 61 (New Netherlands 55th sale), EF but with various planchet defects, weak in centers. Rarity of the variety is difficult to explain; probably the reverse die breaks advanced rapidly, and in general heavy die breaks on gold are not found because the dies were often inspected and quickly condemned when breaks were found. **ONLY TWO KNOWN** (now 3 known). The discovery specimen appears to have been Newcomer's, referred to in Adams as in the Clapp collection; this was VF and cost Newcomer \$100, which was several times the then (1926) going price for 1795's in that grade. It is pictured in Adams."

We have seen worse specimens of the "common" variety (13 leaves) called "About Uncirculated" and even "Uncirculated" (it has some prooflike surface) in recent years. Scott lists two major varieties for 1795: "13 leaves in branch" and "9 leaves." As the "FINEST KNOWN" of the **ONLY 3 SPECIMENS KNOWN** of a MAJOR VARIETY, this would surely merit the "Chance of a Lifetime" quote (if any coin merits this quote). How strong a five figure price this remarkable specimen will bring will be better known after the sale. Certainly it is rarer than many of the six figure coins offered the past year, but it has not received the publicity and "build-up" given to them.

926. 1886-S Brilliant Uncirculated, usual bag-marks. Trends 215.00.
 927. 1893 Uncirculated with usual bag-marks. Trends 215.00.
 928. 1894 Brilliant Uncirculated with usual bag-marks. Trends 215.00.
 929. 1897 Brilliant Uncirculated, only a few of usual bag-marks. Trends 215.00.

\$20 GOLD 1860 CHOICE

930. 1860 Brilliant Uncirculated, Sharp Struck with nearly full luster. **RARE SO CHOICE!**
 Trends \$975 for "ordinary" unc; this Sharp Struck one worth over \$1,500.00;
 perhaps closer to 2,000.00.

\$20 GOLD 1870-CC CHOICE

931. 1870-CC Extremely Fine & Sharp with traces of luster. **QUIRE RARE & POPULAR.**
 The last specimen to appear on the market was that in Superior's Oct. 15th sale
 described as "The King of the Carson City mint gold coins. Every want list seems
 to always carry this date. There are less than 30 known specimens making this one
 of the key rarities in the Liberty Head Double Eagles struck for circulation. About
 Very Fine." That coin realized \$29,000.00 with the purchaser being a dealer.

It will be interesting to see how much more this much choicer specimen will
 now bring. Probably in the range of upwards of 50% more.

\$20 GOLD 1931-D CHOICE

932. 1931-D Brilliant Uncirculated with a few of the usual bag-marks. **EXTREMELY RARE!** Seldom offered. The less rare 1932 (1931-D not offered) in Superior's Oct. sale fetched \$13,000.00. Surely this somewhat rarer date worth several thousand more.

1856 PATTERN FLYING EAGLE CENT

933. 1¢ 1856 J-185, Regular Flying Eagle obverse combined with oak wreath and broad ornamental shield reverse, copper, glittering red and bluish **PROOF**, minute carbon flecks on reverse. **RARITY 8! ONLY 2 OR 3 KNOWN.** Catalogs \$2,000 in the five-year old Judd book. Present values for patterns seem to be several times that prevailing five years ago.

TWO-CENT PATTERNS

935. 2c 1863 J-312, Small Motto GOD OUR TRUST, word CENTS much curved (resembles adopted die except for above). Last one offered was \$500.00; present value?

936. 2c 1864 J-318, Design as adopted in 1864 with Large Motto, aluminum, Brilliant Proof. **RARITY 8!** Envelope has "2 STRUCK." Popular "Transitional." Comparable patterns seem to be in the \$2,000 to \$3,000.00 range. It will be interesting to see what this rarity now brings.

TWO-CENT 1864 SMALL MOTTO PROOF PATTERN

LOT NUMBER 937

937. 2c 1864 J-366, similar to Regular 1864 SMALL MOTTO except "CENTS" more curved, bronze, GLITTERING RED & BLUISH PROOF, HIGH WIRE EDGE BOTH SIDES, tiny carbon flecks. From a 1971 slae with comments as "NO QUESTION ABOUT IT BEING A PROOF", "NOT VALUED IN JUDD", " LESS THAN 3 OTHERS REPORTED" (N.N. comment by Breen years ago), etc. It realized \$5,100.00. Now, 3 years later, after a marked rise in pattern prices, it should bring substantially more.

PATTERN 3¢ SILVER (TRIME)

944. 25c 1870 J-882, Seated Liberty/Regular rev., silver, golden Proof. R-6. Last one we could locate was \$595.00; present value?

PATTERN HALF DOLLARS

945. 50c 1859 J-236 Paquet design, copper Proof, R-4. Market seems around 700.00.

946. 50c 1862 J-295 Regular dies with GOD OUR TRUST added, silver Proof, R-5. Popular. Porbably a four figure coin today.

1864 TRANSITIONAL HALF DOLLAR PATTERNS

947. 50c 1864 J-391 Regular obverse combined with Regular reverse of 1866 with motto, silver Proof. EXTREMELY RARE AND POPULAR. Judging from what less popular patterns have recently brought, we would be suprised if this didn't exceed \$2,000.00; probably worth closer to 2,500.00.

948. 50c 1864 J-393 similar but struck in aluminum, Proof. RARITY 8! Somewhat rarer than previous coin. Probably realize several thousands.

PATTERN SILVER DOLLARS

949. \$1 1866 J-541 Regular dies with motto, copper Proof, R-7. Comparable patterns have been in the four figures range.

954. \$1 1879 J-1617, Metric Dollar, silver (metric alloy), golden Proof. R-6 but UNPRICED IN JUDD. Possibly a four figures coin.

955. \$1 1885 J-1747, Regular dies with motto E PLURIBUS UNUM on edge in raised letters (same principle as used for 1907 Roman Date \$20), silver, golden Proof. POPULAR. The last specimen to appear at auction realized \$8,000.00. Present value?

Bought in 1974 at \$7,000.00; present value? [photo bottom page 101]

1871 HALF DIME, 1873 HALF DOLLAR PATTERNS

\$3 1871 GOLD PATTERN

976. \$3 1871 J-1168, Regular dies in aluminum, Brilliant Proof. Listed R-7 in Judd but Scott calls it R-8. Popular denomination. Based on a comparative scale with other patterns, this rarity should realize over \$2,000; perhaps closer to 3,000.00.

\$5 1804 GOLD PATTERN

977. \$5 1804 J-31, Restrike in copper from rusted dies, uncirculated, blended tan and chocolate. R-7. Based on what comparative patterns are bringing, this should realize around mid four figures.

1867 \$5 PATTERN, ONLY ONE AVAILABLE

978. \$5 1867 J-601, Liberty Head wearing coronet with star/regular reverse 1843-1865 (no motto), nickel. Judd states "TWO KNOWN. ONE IN THE JOHN HOPKINS UNIVERSITY COLLECTION." Therefore **THIS IS THE ONLY SPECIMEN AVAILABLE TO COLLECTORS!** Mounted in plastic. Less desirable patterns have brought six figures. It will be interesting to see what this realizes.

\$10 1870 PATTERN - RARITY 8

979. \$10 1870 J-1037 Regular Dies in nickel, Brilliant PROOF. RARITY 8! Bought in 1974 at \$3,000.00; present value?

\$10 1874 INTERNATIONAL GOLD PATTERN

980. \$10 1874 J-1374. In plastic lettered "DANA BICKFORD'S INTERNATIONAL TEN DOLLAR GOLD (UBIQUE)* good anywhere" above. "1874 DIVIDED INTO SEGMENTS SHOWING VALUE IN 7 DIFFERENT COUNTRIES" below. Struck in copper and GOLD PLATED, BRILLIANT PROOF! Our excitement in cataloging this highly desirable specimen is understandable as it appears to be J-1373 (two known) solid gold until we carefully examined it and determined it is copper with gold plating.

The INTERNATIONAL GOLD PIECES (\$10 1874, \$4 1879 Stella, \$20 1879 Quintuple Stella) have been quite popular. We note the \$4 in gold brought \$32,000.00 in Superior's Oct. sale and a \$20 (J-1643, R-7) was offered at the Aug. A.N.A. Convention at \$225,000.00. The much rarer \$10 in gold (2 known) does not have any modern record that we could find. In checking with other dealers who have handled patterns, the following comments were received: "Certainly worth over \$5,000." "If I had it in stock, I feel I could sell it for \$10,000." "Somewhere around \$7,000 to \$10,000." "Love to buy it at \$5,000." "Don't really know; maybe \$5,000, maybe \$10,000, who knows - maybe more."

It will be interesting to see what this highly desirable historical piece brings.

1865 \$20 PATTERN, R-8

981. \$20 1865 J-454, Regular dies in copper. Judd lists it as R-8 but notation has "OTHER IN SMITHSONIAN"! Possibly carried as a "pocket piece" as it is toned steel-blue and has some friction. Prices comparable patterns have brought leads us to believe this outstanding rarity will bring a substantial four figures.

\$20 1884 GOLD PATTERN

982. \$20 1884 J-1738, Regular dies in copper and gold-plated (gilt), BRILLIANT PROOF. Judd states, "copper R-8. One gilt." The regular gold coin brought \$110,000.00 in Stack's May sale. We note \$19,950.00 on the envelope. It will be interesting to see what this rarity brings.

STRUCK AT SAN FRANCISCO MINT**

988. 1915 PANAMA PACIFIC COMPLETE SET IN ORIGINAL PLUSH BOX, Brilliant Uncirculated, Choicer than most seen! Set consists of \$50 Octagon, \$50 Round, \$2½, \$1 Gold; 50c silver. The set is mounted in plastic for easy display and handling. The original plush box seems to have been mishandled some.

A lovely and popular set. The set in plastic (without an original plush box) brought \$31,000.00. We note dealers are offering to pay \$31,000 for sets in the original boxes. Surely this worth somewhat more.
